Color-up your cosmetic formulation

WorléeSoft Beads

Celebrate your Pride with the vibrant WorléeSoft Beads! These eye-catching colored particles are not only visually stunning but also offer a multitude of benefits. Comprised of predominantly natural and renewable ingredients, these non-GMO particles can be used in leave-on or rinse-off products.

WorléeSoft Beads are available in various sizes and colors, with some even containing active ingredients. They are perfect for incorporating into cosmetics and personal care products. Whether it is creams, lotions, or other skincare products, these beads add a captivating visual element and provide a truly unique user experience.

In both aqueous formulations and emulsions, these solid particles soften, creating a luxurious sensation on the skin. Furthermore, WorléeSoft Beads are free from preservatives and do not include any animal-derived components.

Pride Month represents inclusivity, acceptance, and the celebration of diversity. So why not embrace these values in your cosmetic products with the lively colors of WorléeSoft Beads?

Benefits

✓ Visual effects create a purchasing incentive for customers

✓ Free of preservatives

✓ Active ingredients, colors, degrees of hardness, and sizes according to customer wishes

✓ More than 97% Natural Origin Content according to ISO 16128

Formulation RR-03-52-01
