## Natural care for skin and hair

### WorléeJojoba Oil

Our **WorléeJojoba Oil Golden** is a clear, light yellow jojoba oil extracted from the mature seeds of the jojoba bush by means of cold pressing and filtration. Additional bleaching and deodorizing of the cold-pressed oil yields a colour- and odourless plant-based oil, best known as our **WorléeJojoba Oil Lite**.

These fluids are liquid waxes composed of long chain C18-C22 esters from monounsaturated fatty acids and also available as organic grades. They can be perfectly used for hair care, skin care, nail care, in make-up products, bath oils as well as in soaps. Our **WorléeJojoba Oils** comply with NaTrue- and COSMOS-Standard. The organic grades are certified analogue to the Council Regulation (EC) No. 834/2007.

**WorléeJojoba Oil** is the perfect fit for beard care products. In our beard oil formulation, it provides protection and care for the beard hair. At the same time it nourishes the underlying facial skin and relieves itching. The balanced combination of different oils helps to keep the skin and beard moist and provides it with essential nutrients without leaving a greasy feeling.
