

OUR SUMMER COLD BREWS

As colourful as life itself

We celebrate colourful life! And in order to make people see and feel this colour and joy in their glasses, we have developed five new fruity cold infusion compositions.

Whether as a summery, refreshing tea drink, refined as a delicious summer cocktail or even as an extraction raw material for ready to drink products - our new tea creations express the colourful diversity of the tea world.

These five cold brews are the highlights of this summer:

- Red Cranberry-Raspberry Cold Brew - intensely berry
- Pink Dragon Fruit Cold Brew - sweet and sour
- Dark Orange Rooibos Cold Brew - sweet and sour
- Blood Orange Cold Brew - fruity fresh
- Yellow Mango Cold Brew - tropical and sweet

Inspire your customers with a unique and tasty colour variety of teas!

Request your personal sample package from us and let yourself be refreshed by our new colourful cold infusions.
