

Product Overview

Natural Raw Materials

For high-quality food

First-class raw materials and innovative solutions

«Our raw materials are important building blocks for the success of our customers», says Reinhold von Eben-Worlée, Worlée Group shareholder.

As a supplier, producer and refiner, Worlée NaturProdukte supplies customers all over the world with high-quality natural, chemical and cosmetic raw materials. What sets us apart is our striving for greater sustainability, our innovative strength and our creativity in developing individual product applications. Highest quality standards, comprehensive technical know-how and a good sense for trends and market developments make us a trustworthy and reliable partner for our customers.

With over 170 years of experience in the industry, we continuously optimise existing products and processes.

Whether herbs, spices, mushrooms, tea, vegetables, fruits, semi-finished products or dried raw materials for pet food – with conventional, but also organic, sustainably produced and fairly traded raw materials as well as innovative application ideas, the family-run traditional company is always a step ahead of market trends.

To ensure the supply of high-quality raw materials, Worlée relies on exclusive cooperative relations with partners in the producing countries. Careful use of resources, fair working conditions and sustainable crop rotations are important components of our procurement projects – always taking into account local structures and living conditions in the country of origin.

OUR PRODUCT OVERVIEW

ALGAE

					Organic certifications				Social standards	
Product name	Botanical name	Air-dried	Spray-dried	Freeze-dried	EU-Bio	Naturland	NOP		FLOCERT Fairtrade	Rainforest Alliance
Bladderwrack	Fucus vesiculosus	✓								
Chlorella	Chlorella		✓		✓					
Kelp	Ascophyllum nodosum	✓								
Spirulina	Spirulina platensis		✓		✓
